**Meridian Grove/Bishops Addition Drainage**

Hillman – Brandon, Knutson and Hillman met. Knutson agreed to Drain Tile, paying half, upon approval by partners. Hillman believes Drain Tile would work with a retention pond that would be on Knutson’s land as a temporary solution to the current water issue. There are 2 city funds to temporarily borrow money for the project. Infrastructure balance is \$17,000.

Brandon is willing do an Engineer report & plans to match Hillman’s expectations. Brandon does not believe drain tile will solve the water issue.

*Motion Hillman, directing engineer & attorney to work on project, second Kartes.*
